Amd. dated July 7, 2004

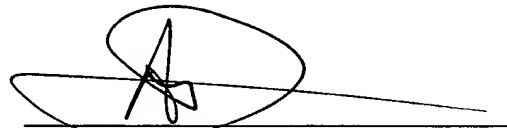

**REMARKS**

Applicant noted that the numbering of the C-terminal residues for mG, hG, hT and hD and the positioning of the "dots" above the sequences (as indication for every tenth residue) are incorrect. Accordingly, the changes made to Figure 15 in the attached corrected formal drawing of Figure 15 correct these errors and do not introduce any prohibited new matter into the application. The examiner's approval of the corrected Figure 15 and entry thereof is respectfully requested.

Respectfully submitted,
